Ceremonial Sword (China)

M52 Pistol (Czech.)

WARHAWK's wide variety of chosen weapons ranges from a heavy grenade launcher to a light pistol that can easily be concealed.

From the Files of The FORCE OF FREEDOM™: (Authorized Personnel Only!)

GENERAL WARHAWK is a brilliant madman—a man without a country, trying to become ruler of the world. Before being exiled from his native land, he gained the rank of Captain. And if he hadn't been caught selling state secrets, he might have had a successful military career. But exile became his destiny.

WARHAWK calls himself "General," but his S.A.V.A.G.E. Army is a bizarre collection of outcasts and international criminals who threaten the safety of the world. "His battle plans are those of a military genius," admits COL. TRAUTMAN™, whose hotline from the Pentagon lights up when THE GENERAL is mounting another assault. That's when TRAUTMAN calls on RAMBO and THE FORCE OF FREEDOM.

"No army has ever defeated S.A.V.A.G.E.," boasts the sinister GENERAL. "Someday I will rule the world, and RAMBO too!"

Distinguishing Physical Characteristics: *Born: Fort Carson, Colorado; 5' 8"; 120 lbs.; Brown eyes, brown hair*

Education: *Has traveled worldwide, receiving degrees at the Sorbonne, Oxford, and Yale. Fields of study include biophysics, polymer chemistry, sociology, and anatomy*

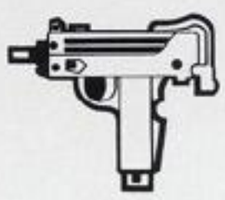
Weapons: *Expert in the use of a wide variety of weapons, including the following:*



Ingram Submachine Gun (U.S.A.)

Kukri Knife (India)

Climbing Gear (U.S.A.)

K.A.T.'s familiarity with the workings of weapons enables her to design special ones that help RAMBO accomplish his missions. She often uses the Kukri Knife, first used by the Gurkas in India. Legend has it that once the knife is drawn from its sheath, it must "see battle."

From the Files of The FORCE OF FREEDOM: (Authorized Personnel Only!)

KATHARINE ANN TAYLOR, alias K.A.T., was an army brat who grew up playing with M-1's instead of paper dolls. When she was 10 years old she could hit a bullseye at 500 yds. She studied the workings of all weapons, and modified them to perform the way she wanted. When her father was transferred to Taiwan she trained in the Martial Arts and became a blackbelt in Ninjitsu and Karate.

During her teens, she channeled her energies into qualifying for the Olympics in gymnastics. And because of her father's international government connections, she was asked to spy at the games to uncover any possible terrorist plots. Her connection was COLONEL SAMUEL TRAUTMAN, and that is how K.A.T. eventually became one of the elite members of THE FORCE OF FREEDOM.

With her weapons know-how K.A.T. designs special-purpose equipment for RAMBO. When she's working with THE FORCE OF FREEDOM, she wants to be treated just like one of the boys, but she sure doesn't look like one!

Battle-Action Grappling Hook!
K.A.T.'s special grappling hook enables her to climb almost any wall. Its quick-release, spring-action launches the hook to the wall's edge, and K.A.T. simply pulls herself up. (Just pull the string to launch the grappling hook!)

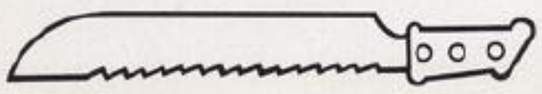
AK-47 Assault Rifle (U.S.S.R.)

Stetchkin Pistol (U.S.S.R.)



Machete (U.S.A.)

SGT. HAVOC never travels without his AK-47. It is heavily-notched—one mark for every battle he has been in.

From the Files of The FORCE OF FREEDOM: (Authorized Personnel Only!)

SERGEANT HAVOC is one mean fighting machine! He loves battle—the smell of gunpowder, the sound of automatic weapons discharging. Some say his best friend is his AK-47.

The deceitful HAVOC is loyal to no man, except the scheming GENERAL WARHAWK, leader of the world-wide terrorist group known as S.A.V.A.G.E. Like the rebellious army he belongs to, SERGEANT HAVOC can call no country his home. His past as a drill sergeant-turned-spy and his current allegiance to the evil GENERAL WARHAWK™ have gained HAVOC the reputation of an international criminal.

Each time HAVOC and RAMBO have clashed, the contest has been a rippling muscle match. HAVOC boasts that he can beat any man, but RAMBO has always mailed HAVOC back to the General, postage due! From the Files of The FORCE OF FREEDOM: (Authorized Personnel Only!)

Nobody knows planes and ground vehicles better than Eddie Hayes! RAMBO calls him "TURBO," because he's such an engine expert. "If it has wings he can fly it; if it has wheels he can drive it!" boasts RAMBO.

TURBO and RAMBO met in the army when TURBO had to land a helicopter in an enemy-infested jungle to rescue RAMBO's Special Forces team. Since then TURBO has been flying on RAMBO's wing as a member of THE FORCE OF FREEDOM. When a custom vehicle is needed for a special job, TURBO soups one up. When an expert flyer is needed for an aerial attack on S.A.V.A.G.E.™, TURBO volunteers!

Last year at Indy, TURBO had first place wrapped up when he was signaled to make an emergency pit stop–THE FORCE OF FREEDOM needed him immediately! TURBO doesn't question orders; his loyalty to RAMBO and THE FORCE OF FREEDOM comes first!

GRIPPER's weapons have been specially adapted to fit into his iron fist.

From the Files of The FORCE OF FREEDOM™: (Authorized Personnel Only!)

Before GRIPPER joined the French Foreign Legion, he was a mercenary fighter who couldn't get a job! No army would have him because of his infamous reputation as a totally ruthless fighter. The tough Foreign Legion sent GRIPPER to a dangerous desert outpost. But after two months they kicked him out because he would not acknowledge an enemy's white surrender flag.

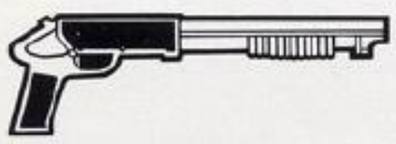
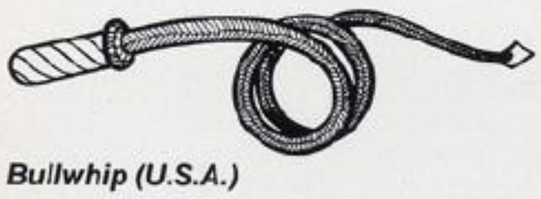
Military Record: *No military record; he does have an extended criminal record, however, having served time for theft, reckless driving and arson*

Military Specialty: *MAD DOG is able to travel easily throughout crowded cities on his S.A.V.A.G.E. Strike Cycle. GENERAL WARHAWK™ uses him as an urban warrior: terrorist tactics, kidnapping, and high-speed chases are his specialties*

Weapons: *Presumed expert in use of the following weapons:*



Ithaca Stakeout Shotgun (U.S.A.)



Bullwhip (U.S.A.)

Dagger (Eng.)

MAD DOG carries the weapons that would be associated with an urban warrior. He tells his pack of S.A.V.A.G.E. Strike Bikers that he wrestled with a rattlesnake to get his bullwhip.

From the Files of The FORCE OF FREEDOM™ (Authorized Personnel Only!)

MAD DOG travels in and about the urban centers of the world, spreading terror and disbelief wherever he goes. He started his criminal career at the age of 7 by stealing his first motorcycle. Since then he's stolen 28 bikes and spent time in jail for each crime.

MAD DOG is a total barbarian. His allegiance to GENERAL WARHAWK is questionable, but THE GENERAL likes his outrageous style anyway. WARHAWK just doesn't want to be around when MAD DOG is collared by RAMBO, because the guy really foams at the mouth!

MAD DOG leads a pack of S.A.V.A.G.E. Strike Bikers. They live in vacant, condemned buildings and travel throughout an urban network of sewers. When they need to hide out, they just drop down the nearest manhole cover. These underworld criminals would like nothing better than to leave their tread marks all over RAMBO and THE FORCE OF FREEDOM!

Battle-Action, Fast-Draw Shotgun!

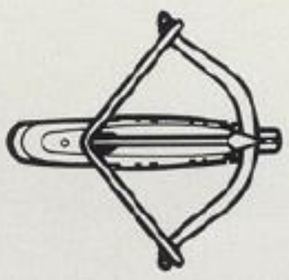
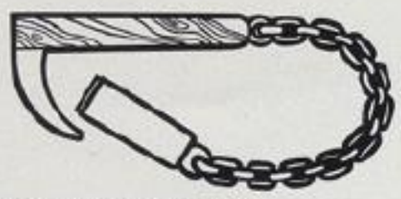
Military Record: *To use his special skills for good, WHITE DRAGON developed a Ninja training program for the U.S. Special Forces. There he met RAMBO and formed a friendship that would later enable him to join THE FORCE OF FREEDOM*

Military Specialty: *Other than his brother, there is no Ninja alive today who is as skilled at scaling sheer cliffs and traveling unnoticed at night*

Weapons: *He is a known expert in the use of the following weapons:*



Pistol Crossbow (U.S.A.)



Bakahtsugama (Japan)

Ninja Sword (Korea)

Thro Star (Japan)

Thro Knife (Japan)

Like his evil brother, WHITE DRAGON uses only silent weapons. His accuracy with thro stars and knives is legendary.

From the Files of The FORCE OF FREEDOM: (Authorized Personnel Only!)

Two brothers, identical twins, are taken at birth to live with mystical mountain warriors and to study their ways. They learn an ancient way of life: how to make oneself invisible, how to be silent in movement, how to sense hidden enemies. They learn Ninjitsu and become the most awesome Ninja warriors alive!

But who can know why BLACK DRAGON™ followed the path of evil by joining GENERAL WARHAWK's S.A.V.A.G.E. Army, or why WHITE DRAGON followed the path of goodness by joining THE FORCE OF FREEDOM? Whatever the reason, RAMBO is happy that WHITE DRAGON is his loyal friend. "He keeps pretty much to himself," says RAMBO, "but when we need him he's always there."

NOMAD supplies his desert warriors with guns that are stolen from ammunition supply trucks that pass by the outskirts of the desert.

From the Files of The FORCE OF FREEDOM™: (Authorized Personnel Only!)

NOMAD was born in a make-shift desert tent during a terrible sandstorm—an omen that he would never have a land to call his own. And so it is that NOMAD roams the desert as an outcast. No country will accept this heartless terrorist.

NOMAD's only family is a S.A.V.A.G.E. band of cutthroats and thieves. Their knowledge of the desert ways enables them to carry out GENERAL WARHAWK's terrorist assaults on innocent villages. Because he is such a sneak, it is not surprising that NOMAD's specialty is sabotage and demolitions.

They learn an ancient way of life: how to make oneself invisible, how to be silent in movement, how to sense hidden enemies. They learn Ninjitsu and become the most awesome Ninja warriors alive!

But who can know why BLACK DRAGON followed the path of evil by joining GENERAL WARHAWK's S.A.V.A.G.E. Army, or why WHITE DRAGON™ followed the path of goodness by joining THE FORCE OF FREEDOM? Whatever the reason, the spirit of the ancient, evil Ninja assassins is with BLACK DRAGON, who uses his special skills to do the General's dirty work. WARHAWK calls for BLACK DRAGON when he needs an expert in sabotage and one who can travel unnoticed in and out of an enemy camp.

BLACK DRAGON doesn't care that he may one day meet his twin brother in battle. Blood is thick, but the evil Ninja's heart is black!

BATTLE-ACTION CROSSBOW!
The crossbow that BLACK DRAGON uses has a 45 lb. draw. It is made of high-impact plastic and aluminum. His arrows have explosive tips – a single arrow can blow-up wooden buildings and bridges. (Just pull the string to launch the explosive arrow!)

Purpose of Design: *To meet the airborne needs of THE FORCE OF FREEDOM.*

Special Equipment: *Retractable wings; mechanical, sliding canopy*

Mechanical, Sliding Canopy

From the Files of The FORCE OF FREEDOM: (Authorized Personnel Only!)

The one-man ASSAULT JET has an innovative wing design that allows for the wings to lock into 3 different positions. In its first position, with the wings at right angles to the fuselage, the jet can be easily transported within another vehicle. In its second position, with the wings swept back, the jet can take-off like a missile. The third position, with wings at a 45 degree angle, is the normal flying position of the plane.

TURBO™ designed the plane specifically to meet RAMBO's airborne needs. Its maneuverability and air-strike capabilities are awesome. RAMBO can locate the S.A.V.A.G.E.™ Strike Airstrip below and release HOT Missiles that drop like bombs. Then he can circle back to finish the job with the front-mounted AGS-17 Russian Grenade Launcher.

The last time TURBO™ penetrated GENERAL WARHAWK's S.A.V.-A.G.E.™ Strike Headquarters, he realized how valuable a high-powered piece of spy-surveillance equipment would be in discovering the enemy's plans. Therefore, he developed the ELECTRONIC SPY SCOPE. With this sound surveillance system it is possible to overhear enemy plans—even when they are spoken at a whisper.
